

SIMPLEBOOK

BOOKING SYSTEM FOR FACILITIES OF ANY SORT

WHY?

As a member of a community with shared facilities, a common booking system is crucial to ensure everyone gets to use the facilities fairly. Current booking systems used in small residential communities or office spaces include manual telephone/email booking systems or rigid and cumbersome online booking systems.

WHAT?

- *Transparent*
- *Easy to use*
- *Customizable*

WHO?

- Anybody
- Everybody.

WHERE?

- *Adaptable to any facility or place.*

HOW?

To develop a flexible and efficient booking system on a mobile platform that can be customised by facilities managers to better represent the facilities available to their users.

FEATURES

- *Retrieval*
- *Bookings*
- *Feedback*
- *Communication*
- *Customization*
